

As coaching grows and expands within Organisations, the need for a control platform to better manage and control the process, effectively administer and manage your budgetary spend becomes critical.

Challenges you might be facing:

- monitoring requests and approval for coaching
- selecting and matching coaches effectively
- administrating and supporting the growing number of Coaches and Coachees
- maintaining a consistent approach to coaching throughout the organisation
- controlling pricing and budgetary spend
- supervising and evaluating the coaching activity
- generating immediate management reports
- understanding current coaching themes

Our Systems:

We have developed two unique online Coaching Management Systems which address the challenges outlined above in a cost effective and efficient way:

- *mye-coach* "Tracker" - tracks, monitors and supports all coaching interventions to ensure transparency, openness and ROI
- *mye-coach* "Matcher" - all of the above plus it enables organisations to manage the requesting, selection and matching process effectively and efficiently

Benefits include:

Our systems have been developed in response to the rapidly growing need to create a consistent, scalable and cost efficient approach to managing coaching and provide...

- *Organisations* with a means of viewing and managing the coaching activity undertaken by either external executive Coaches or by internal Coaches thus helping to develop a Coaching Culture and to ensure Coach and Coachee accountability
- *Coaches* with a professional and consistent means of conducting the process and interactions that surround a coaching relationship, while also providing them with an extensive range of coaching tools and services enabling them to provide a deeper offering to their Coachees
- *Coachees* with a structured and focused approach to support the realisation of their performance objectives and provide confidence that the coaching activity has purpose and meaning
